APPENDIX B.1: What Are Your Risks?

WORKSHEET: While the risks are divided into natural vs. human-caused events, there are overlaps between the categories. Also, the events that are identified are ones that would have widespread impact on a community—not just on a single institution.

PURPOSE: To identify the range of risks to which your arts and culture community is vulnerable

Directions:

Use these questions to guide discussion:

1. Which events are most likely to affect your community/region?
2. Which events have occurred in the last twenty years?

RISK LEVEL			NATURE OF RISK: NATURAL
